SCD300005	133	105	78	25	21
SCD300006	143	105	78	32	28
SCD300007	153	105	78	40	
SCD300014	163	105	78	50	

DESCRIPTION

The SIPHON STOP odour trap is an accessory designed to eliminate the problem of unpleasant odours from the discharge condensate of air conditioning systems.

The transparent body made of high-strength impact-resistant plastic material allows the cleanliness of the siphon to be checked.

The upper and lower polyethylene plugs facilitate inspection and cleaning without disconnecting the connecting pipes.

The conical port of the couplings compensates for the tolerances of the connecting pipes.

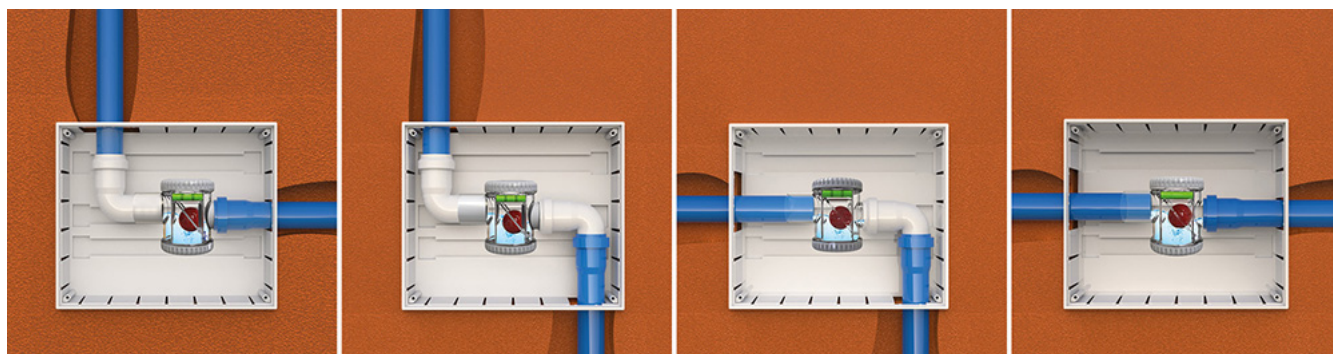

Suitable for pipes with diameter Ø 21 - 25 - 32 - 40 - 50.

Maximum operating temperature +60°C.

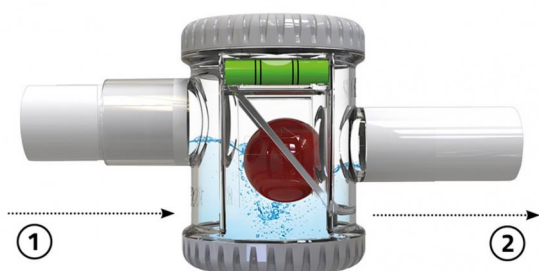

APPLICATIONS

Recommended for horizontal wall or ceiling installation in residential, commercial and industrial applications.

EXAMPLES OF INSTALLATION:

EXAMPLE OF INSTALLATION:

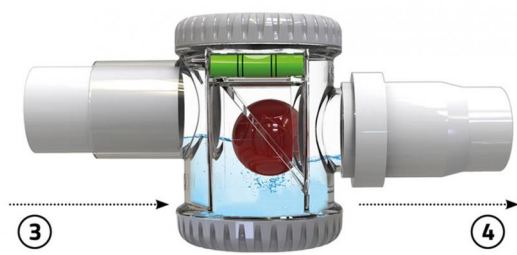

[1] Female coupling inlet

[2] Male graft output

EXAMPLE

female coupling - male outlet for pipes Ø 21 - 25 - 32

EXAMPLE OF INSTALLATION:

[3] Female coupling inlet
[4] Male coupling output

EXAMPLE
female coupling - male cup outlet with pipe gasket Ø
40 - 50
