

FAST CLEANER

professional cleaner for photovoltaic panels, 5 litre tank

- cod. 11111055

DESCRIPTION

"Easy to use (just spray, act a few minutes and rinse with water), effectively eliminates dust, soot, smog, moss, poultry excrement, pollen, crystallized organic residues and plant resins that accumulate on the windows of photovoltaic panels, increasing the efficiency of the plant."

Unlike universal cleaners, this product **DOES NOT DAMAGE** the surfaces and frames of the panels.

It can be used on all types of photovoltaic modules with glass or synthetic material coating, including the normal or anodised aluminium frame.

antistatic effect.

USE:

Spray the product 15/20 cm away, leave the product on for about 2 minutes, then rinse with a water spray.

SAFETY INFORMATION

Read and observe the safety warnings on the container's label.

For information regarding handling, transportation, etc., refer to the Safety Data Sheet (SDS) for the product in question.

TECHNICAL SPECIFICATIONS

- Contents 5 L

- Type: Concentrated
- Dilution: 1:6
