Accessories for Air Conditioning

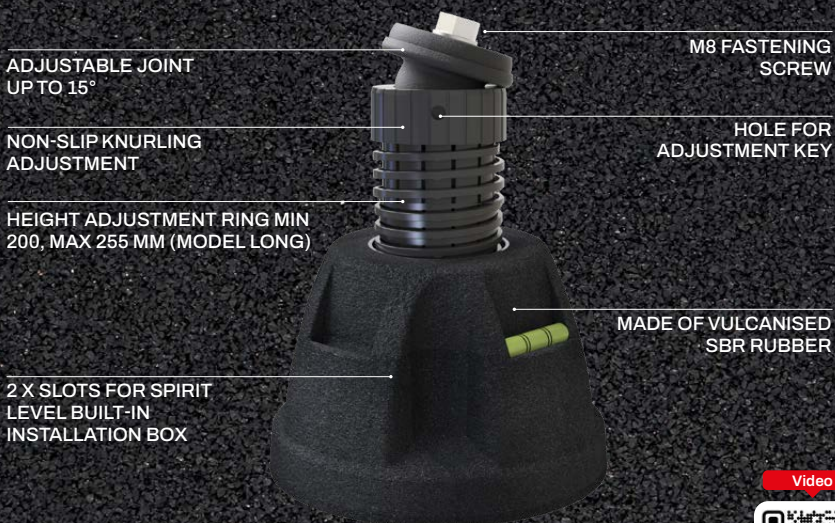

RUBBER DAMPERS FEET

SMALL SOLUTIONS FOR BIG RESULTS

The "Zeus" floor support is made of vulcanised SBR rubber. Manufactured in two versions with a fixed height and with a height-adjustable ring nut, they are suitable for all types of underfloor air conditioners or boilers.

ZEUS

ANTI-VIBRATION FOOT IN VULCANISED RUBBER SBR

- Made of SBR recycled volcanic rubber
- Height 107mm
- No. 2 seats for spirit level insertion
- Fixing screw M8

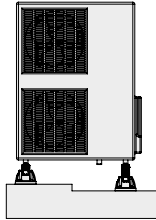

MADE IN ITALY

ZEUS R

ADJUSTABLE VIBRATION DAMPENING FOOT IN SBR VULCANISED RUBBER

- Anti-vibration device included
- Made of SBR recycled volcanic rubber
- Height adjustable from 130 - 150 mm
- Non-slip knurling adjustment

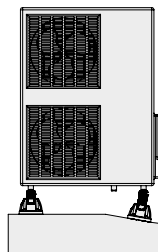

ZEUS HIGH ARTICULATED

ANTI-VIBRATION FOOT IN VULCANISED RUBBER SBR

- Anti-vibration device included
- Made of SBR recycled volcanic rubber
- Height adjustment ring nut min 150 max 205 mm (model Short)
- Height adjustment ring nut min 200 max 255 mm (model Long)
- Non-slip knurling adjustment
- Adjustable Joint
- No. 2 seats for spirit level insertion
- Fixing screw M8 x 50
- Inclination 0-15°

SPK

SBR VULCANISED RUBBER FLOOR SUPPORT

- Made of vulcanised natural rubber
- Fastening bracket hardware supplied
- Recommended for VRV - VRF

MADE IN ITALY

SPK-M

SBR VULCANISED RUBBER FLOOR SUPPORT WITH THREADED ROD

- Made of vulcanised natural rubber
- M8 threaded rod included
- M8 washer and bolt included

MADE IN ITALY

EXTREME VIBRATION-DAMPING FLOOR BASE

The “EXTREME” vibration-damping floor base is with a characteristic vulcanised recycled rubber granule structure and is equipped with an aluminium profile useful for attaching the outdoor condensing unit to the support itself. The floor base can be used to support external condensing units, VRV-VRF, base boilers, electrical ducts or pipes.

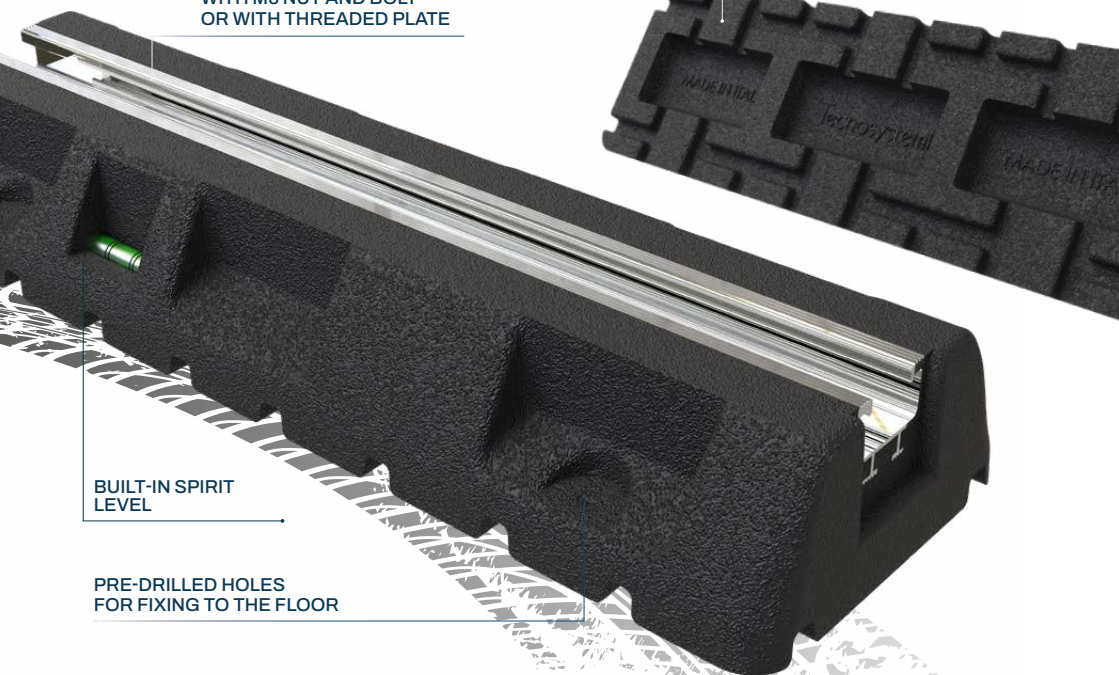

The floor base is equipped with a built-in levelling device for correct positioning and can be fixed to the ground. The machines are fixed to the base with nut and M8 screw or through the supplied sliders with M8 screw.

U-PROFILE: L.38 x H.31 mm
Embedded for strong tightness
