

DATASHEET

CONTROLLED MECHANICAL VENTILATION

Cold water coil for heat recovery unit

COD. 30370070 - 30370080

TECHNICAL SPECIFICATIONS:

- Maximum operating pressure: 15 bar
- Horizontal installation only
- If the battery is installed in areas where the temperature is below 0°C, use an antifreeze mixture
- Designed for cooling the supply air in the ventilation system on rectangular ducting
- Heat exchanger with copper pipes and aluminium fin pack
