INTERIOR PURIFIER

sanitising spray for room treatment

HCC100003 - HCC100004

DESCRIPTION

INTERIOR PURIFIER PRO is a treatment that sanitises the air and surfaces within an environment by removing contaminants and leaving a pleasant scent.

Wearing gloves, safety goggles and face shield, it will take 30 seconds and a simple gesture to sanitise environments up to 70 m² – 160 m³ in one go (homes, offices, shops, restaurants, movie theatres, classrooms, canteens) or up to 3 passenger compartments of cars, buses, emergency vehicles, vans, train and metro wagons, aircraft cabins, etc. The powerful jet of the 600 ml cylinder delivers 20 ml/second.

This ensures that the air is completely saturated in just 30 seconds, allowing the disinfection molecules to deposit evenly on all surfaces present in the environment.

Total sanitisation is guaranteed by letting INTERIOR PURIFIER PRO work for at least 10 minutes. It is also advisable to maintain a distance of at least 1.5 metres from surfaces, objects and walls and to not inhale the product during treatment.

It is necessary to ventilate the environment before staying there.

TECHNICAL SPECIFICATIONS:

- Sanitises rooms up to 70 m² – 160 m³
- Ideal for purifying vehicle interiors
- Captures contaminants and permanently stops their action
- Disinfectant registered in Germany (No. 69547)
- Dispensing of 20 ml/second
- Ready to use - perfumed
- 600ml spray bottle

APPLICATION ON EVAPORATORS

1 - wear gloves, face shield and safety goggles. It is recommended that you wear clothing that covers your legs and arms. Do not breathe the product during the intervention.

2 - make sure there are no people or animals in the environment.

3- Shake the cylinder before use.

4 - Distribute Interior Purifier into the environment while maintaining a distance of at least 1.5 m from surfaces, objects and walls.

5 - Allow the product to act for at least 10 minutes.

6 - Aerate for 10 minutes before staying there.

APPLICATION IN CAR PASSENGER COMPARTMENTS

1 - wear gloves, face shield and safety goggles. It is recommended that you wear clothing that covers your legs and arms. Do not breathe the product during the intervention.

2 - make sure there are no people or animals in the passenger compartment.

3- Shake the cylinder before use.

4 - Distribute INTERIOR PURIFIER PRO into the passenger compartment while maintaining a distance of at least 1.5 m from the dashboard, objects and seats.

5 - Allow the product to act for at least 10 minutes.

6 - Aerate for 10 minutes before staying there.

INDICATIONS OF THE DANGERS

Indications of the Dangers: H222+H229 Highly flammable aerosol

Pressurised container: may explode if heated.

H319 Causes severe eye irritation.

Safety Recommendations:

P210 Keep away from heat, hot surfaces, sparks, open flames or other ignition sources, Do not smoke.

P211 Do not spray over an open flame or other source of ignition.

P251 Do not puncture or burn, even after use.

P410+P412 Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F.
