DESCRIPTION

Linear retracting diffuser in anti-condensate PVC with damper, insulated plenum and side baffles.

Available with 20 or 30 mm slot in black or white.

With a unique, original design, the plenum is made of galvanised metal sheet coated with closed-cell polyethylene.

This retracting linear diffuser combines design and function, blending perfectly into any room, with uniform air diffusion and high thermal induction.

This innovative diffuser is made from PVC which, in contrast to aluminium, due to its physical characteristics does not produce condensate; this avoids the formation of fungi, mould and bacteria inside the diffuser and ensures excellent wall insulation.

The inlet collars are included in the pack and must be assembled according to installation needs.

The plenum has other built-in installation boxes for additional ducts and VMC ducts, break as needed.

The damper is used to control the required amount of air and can be calibrated using a screwdriver.

Housings are obtained from inside the profiles to enable the mounting of adjustable PVC baffles.

By changing the baffle direction it is possible to deliver the air flow according to the place of installation, if necessary obtaining a Coanda effect.

APPLICATIONS

Diffuser ideal for wall or ceiling installations, in both delivery and intake, at a height between 2.5 m and 3.1 m.

ACCESSORIES

- False ceiling brackets, included.
- Continuity kit, can be purchased separately.

INFORMATION

Measures are indicated in millimetres (mm), unless otherwise specified.

The plasterboard thickness calculated for these configurations is 12.5 mm (not included in the supply).

TECHNICAL DATA

DIFFUSER	TECHNICAL SPECIFICATIONS
Material:	Anti-condensate PVC
Colour:	White / Black
Flammability rating:	V0
Operating temperature	-30°C ... +60°C

LOAD CAPACITY AND PRESSURE DROP CURVES

20 mm slot with or without damper, vertical baffles

20 mm slot with or without damper, tilted baffles

30 mm slot with or without damper, vertical baffles

30 mm slot with or without damper, tilted baffles

MODEL	Ak [m²]	Qv min [m³/h]	Qv max [m³/h]	Lwa min [dB(A)]	Lwa max [dB(A)]	DP min [Pa]	DP max [Pa]
SLOT 20	0.02	155	350	32	46	10	50
SLOT 30	0.03	210	465	33	47	10	50

INFORMATION

The data in the table refers to 1000 mm long linear retracting diffusers, with fully open damper and vertical baffles.
