

TCR-21 ECO

rigid condensate drain pipe

- cod. SCD3E0001

DESCRIPTION:

- The rigid condensate drain tube is made of self-extinguishing, UV-stabilised, impact-resistant recycled PVC, in black. The thickness of 2 mm offers a remarkable strength, high insulating capacity and flexibility of use.
- The perfect seal between the pipe and the accessory is guaranteed by the construction characteristics of the fittings and by the sealing gasket. They are also particularly suitable for under-track use in combination with fittings or in visual discharges, where good precision is required to ensure the correct slope to the water discharge.
- Available in 2 m bars, in a minimum pack of 25 pieces

TECHNICAL SPECIFICATIONS:

- Shockproof and anti-UVA PVC
- Anti-condensation
- Thickness 2 mm
- Accessories with internal O-rings

EXAMPLE OF INSTALLATION:
