

SUELO MAXI ECO

floor base pair with vibration-damper

SCD5E0001 - SCD5E0002 - SCD5E0010
SCD5E0003

DESCRIPTION:

- The floor supports, made of rigid and shockproof recycled PVC, in the lower part are equipped with 3 vibration damping rubber lines.
- They are resistant to high temperatures and allow quick installation combined with excellent aesthetics.
- Suitable for all models of split air conditioners, they have a capacity from 140 kg to 400 kg each.
- The particular honeycomb structure makes them vibration-damping. Easy and quick to install, they are equipped with galvanised bolts and nuts for fixing to the condensing unit.
