

Condensate discharge pipe Ø 20 with single coating - Sleeves Ø 16/18 and 18/20, alternated

- cod. SCD300088

DESCRIPTION

The corrugated condensate discharge pipe Ø20 is made in recycled grey polyethylene with single anti-UVA coating and is packaged in 50 m rolls.

Every 52 cm there are alternated Ø16/18 and Ø18/20 fitting sleeves; this helps to cut the pipe to length, choosing the correct and required joint.

The materials used, along with the new corrugated shape, guarantee high flexibility and mechanical resistance, making the pipe ideal for duct applications.

Buried installation not recommended.
