

SPK

vulcanised rubber SBR floor support with threaded bar

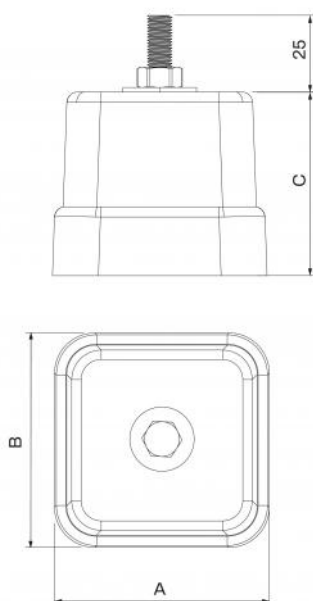

- cod. SCD500469 - cod. SCD500470 - cod. SCD500471

DESCRIPTION

The SPK anti-vibration floor base is made with a characteristic granule structure in vulcanised recycled rubber. Equipped with an M8 threaded bar (to be assembled) for securing the outdoor units through the use of M8 frog bolt (supplied).

The floor base can be used to support external condensing units, VRV-VRF, base boilers, electrical ducts or pipes.
