

MINI DISCOVERY 3X

wall-mounted backlit programmable thermostat with touch, battery-run radio frequency

- cod. GAD100008

DESCRIPTION

The MINI DISCOVERY 3X thermostat makes it possible to perform quick operations to manage the room, adjusting the set point temperature and the flow of air emitted from the dampers or vents.

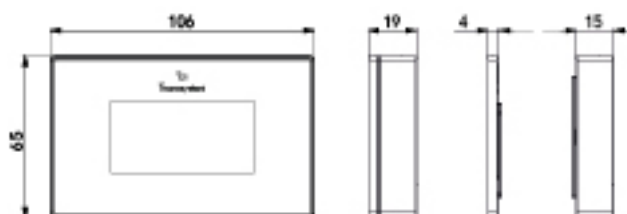

The thermostat is equipped with a backlit 2.4" LCD display and a touch keypad.

The programmable chronothermostat is wall-mounted quickly, using a coupling template supplied which allows it to be easily attached and detached with a slight pressure.

The DISCOVERY 3X zone chronothermostat works exclusively together with the POLARIS controller.

N.B.: Within a PROAIR system that uses MINI DISCOVERY 3X thermostats, at least one DISCOVERY 3X or STEALTH 3X thermostat must be provided to perform the master function.

DIMENSIONS

TECHNICAL SPECIFICATIONS

TECHNICAL SPECIFICATIONS	
Power supply:	2 AAA 1.5 V batteries
Battery life:	≥ 1 year
Protection rating:	IP30
Operating temperature:	0°C ÷ +40°C
Storage temperature:	-10°C ÷ +50°C
Operating humidity:	20% ÷ 80% RH
Radio communication frequency:	868 MHz
Temperature control setpoint:	10°C ÷ 35°C
Measured temperature resolution:	0.1°C
Transmission range:	up to 50 m in open field
Weight (without batteries):	370 g
Body material:	ABS white
Front material:	white PMMA

FUNCTIONS

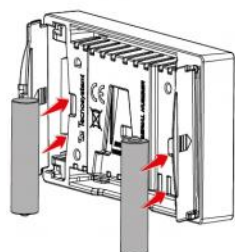

- Room temperature and set point value
- Functions: manual or chrono (*)
- Touch keypad and backlit display
- Automatic or manual opening adjustment of damper and grille
- Key lock
- Temperature scale °C / °F (*)
- Wall mounted using template, screws and fixing plugs supplied

(*) Time bands can be set from the POLARIS controller, the Tecnosystemi app or the Master Chronothermostat

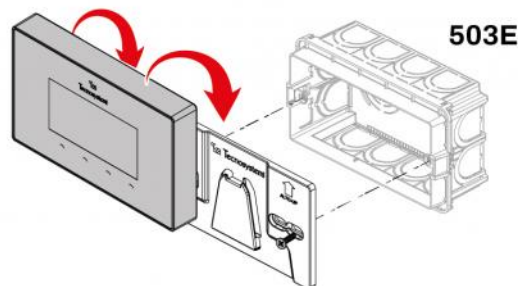

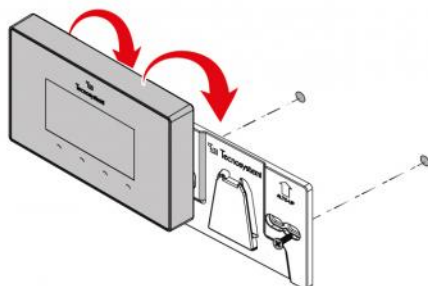

DISPLAY

ASSEMBLY

2x1.5V type AAA
(not supplied)
